

English

Wherever possible, we will be linking our English work to our World War II topic. We will be using the text 'Goodnight Mr Tom' as a basis for many of our English lessons. The children will be writing a range of genres, including recounts, explanation texts and discussion texts.

Maths

Our maths focus for this term will be percentages, geometry (including angles, shapes, perimeter, area, position and direction) and measures (including converting units and volume).

History

All of our history lessons will be based around our World War II topic. The children will (amongst other things):

- ♦ understand how a range of sources can be used to find out about the past,
- ♦ Describe the main changes in a period in history
- ♦ Be able to give an overview of life in Britain and other parts of the world
- ♦ Use appropriate historical vocabulary

They will be learning about various elements of WWII including: the cause of WWII, home front, the Blitz, evacuation, rationing, propaganda, Anne Frank and V.E. Day.

P.S.H.E.

Coping with family breakdowns, changes and moving on, including S.R..E

French

We will be learning vocabulary related to holidays.

Computing

We will be using Google Sketchup to create 3D building and images. We will also be learning more about communicating securely through an introduction to cryptography

SUMMER TERM 2017

Trips

We will be visiting Duxford Imperial War Museum (details to follow) and also St Michael's Church.

P.E.

Our units of work for the term are: 'Gymfit' (circuits) and 'Fitness Frenzy'. Both of these units will help us to increase and improve our strength and stamina. We will learn about the positive effects that exercise has on our bodies and identifying changes that occur during exercise. Outdoor P.E. lessons will help us to develop our athletics skills and our striking and fielding skills.

Music

Composition—create background music and learn a song

R.E.

We will be learning about the miracles of Jesus and the journey of life.

Art and Design and Technology

In art, we will create a stained glass (effect!) picture and learn more about perspective. In Design and Technology, we will develop our sewing skills by making bunting.

Science

Our first science units will be 'Space' where we will learn about the solar system, how space has changed over time and what causes day and night. Our other unit of work will be 'Living things and their habitats' where we will be looking at life cycles of various species and learning about the process of reproduction in plants and animals.
