

Year 5 Home Learning

| | | |
|--|---|--|
| Writing | <p>Dear parents,</p> <p>Here is an overview of tasks that we would like the children to be working on over the next few weeks.</p> <p>To support children's learning, we have also sent home their Purple Mash log-in details. On Purple Mash, you can find tasks and games which support learning across the curriculum.</p> <p>We are committed to ensuring that your child is still learning as much as possible and we will communicate with you as much as we are able to do so during this time.</p> <p>Kind regards,</p> <p>Mr Leeding and Mrs Orton</p> | Maths |
| <p>Continuing with our theme of space, try to complete the following tasks:</p> <ul style="list-style-type: none"> • Rewrite a fairy tale, replacing one of the characters with an alien e.g. E.T. and the 7 dwarves. • Write a daily diary of your time away from school (it doesn't have to be entirely accurate!) • Write a letter to an alien planet explaining what life on Earth is like right now. | | <p>We are sending maths sheets for you to work on focussing on topics that we have covered during this academic year. These are: place value, addition, subtraction, multiplication, division, area & perimeter, fractions and statistics.</p> <p>Each page has varied difficulty levels; make sure you are choosing work that will challenge you.</p> |
| Reading Comprehension | | Times Tables: trockstars.com |
| <p>We are sending some reading comprehension tasks to be completed at home. Read the text, highlighting key information as you go and then use evidence from the text to answer the questions. Make sure you look at how many marks each question is worth, that will tell you how much detail is needed.</p> | | <p>We practice times tables during every maths lesson. The children can still challenge Mr Leeding or Mrs Orton to a Rockslam and we will try to answer your challenge as soon as possible. And watch out because Battles between the two year 5 classes or between the girls and the boys may still appear while you're away from school!</p> |
| SPAG | | Arithmetic |
| <p>Work your way through the pack of grammar worksheets to perfect some of the skills we use in our writing. Focus first on areas that you know that you find tricky.</p> | <p>Every day for early work, children complete a short arithmetic sheet covering written methods for addition, subtraction, multiplication and division.</p> <p>On the My Mini Maths website, you can find examples of the types of question that we would use.</p> <p>https://myminimaths.co.uk/year-5-mini-maths/</p> | |
| Daily Reading | Art | |
| <p>Children should be reading at least 5 times a week. This is a great opportunity to read some good books! Children should have brought home a library book from school. If you finish it and have nothing else to read, why not try an audiobook or read what's happening in the news at: https://www.bbc.co.uk/newsround</p> | <p>This half term, we have been learning about space and writing about ET. Using whatever artistic supplies you have available could you create a piece of art inspired by one of those topics?</p> | |
| Science | PE | |
| <p>This half term, we have been learning about space. Each night fill in the sheet to show the shape of the moon. Over the course of 30 days, you will complete a lunar cycle.</p> <p>+ Choose a planet that you are interested in and complete a fact file about it.</p> | <p>You may not be able to get out as much as usual but you can still keep active!</p> <p>Joe Wicks work-outs https://www.youtube.com/watch?v=EXt2jLRlaf8</p> <p>Cosmic Kids yoga https://www.youtube.com/user/CosmicKidsYoga</p> | |
| Geography | Geography | |
| <p>Pick a food that you love to eat and research its journey to the UK. How does it make its way to your dinner plate? https://schools.fairtrade.org.uk/</p> | <p>Pick a food that you love to eat and research its journey to the UK.
