

Race your friend to the top of the mountain.

Play with a partner.

Start at the bottom of the mountain. Take it in turns to answer a question. If you get it right move up onto the next level of the mountain.

If you get it wrong stay where you are.

Make sure you both check if the answers have been calculated correctly!

The first person to reach the summit is the winner.

$$6324 - 2546$$

$$3756 + 4365$$

$$5746 - 1652$$

$$6473 + 2523$$

$$9857 - 3426$$

$$2468 + 2324$$

$$2563 + 1000$$

$$9743 - 2000$$

$$723 + 1000$$

$$4576 - 4000$$
