

### **Dementia Friendly Community Accreditation for Galleywood!**

At the beginning of last week, Mrs Orton received the wonderful news that Galleywood has been approved as a **Dementia Friendly Community** with St Michael's Junior School as the hub for this, working closely with other key stakeholders in the area. I am told by our contact from the Alzheimer's Society that we are the **first school in the country** to lead on the creation of a DFC so this really is a significant achievement for us all.
